REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest a thermal barrier coating having the limitations of instant claim 1. The reference of Kim (J. Amer. Ceram. Soc., 1990) discusses the c/a values for zirconia combined with a number of metal oxides. Kim does not discuss porosity or values for impact or corrosion resistance. Tien '768 discusses c/a values for zirconia combined with metal oxides, but also does not discuss porosity or values for impact or corrosion resistance. Michel '832 gives values for c and a in table I, but does not discuss porosity or values for impact or corrosion resistance. One of ordinary skill would not have been motivated with the teachings of these references, either alone or combined, to form the thermal barrier coating of the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jennifer C McNeil whose telephone number is 571-272-1540. The examiner can normally be reached on 9AM-6PM.
